

# ALTECH<sup>®</sup>

Polymer Tuning

The word "ALTECH" in a bold, white, italicized sans-serif font with a registered trademark symbol, set against a teal background with a fine, repeating geometric pattern.

# PLASTICS WHICH EXCEEDS NORMAL STANDARDS.

## THE IDEA: PLASTICS WHICH REALIZE YOUR IDEAS.

The ALTECH® portfolio covers a wide range of technical compounds with special thermal, mechanical and color characteristics. We can supply your product quickly in whatever color and quantity you require. Using our existing product range as a basis, we develop compound solutions with unique performance characteristics that fit exactly to the individual requirements of your application.

Let us know the challenges you face in optimizing your products or processes. Whatever you require, ALTECH® will fulfill your needs economically, quickly and reliably.

ALTECH® is used in numerous applications and industries. What is your application?

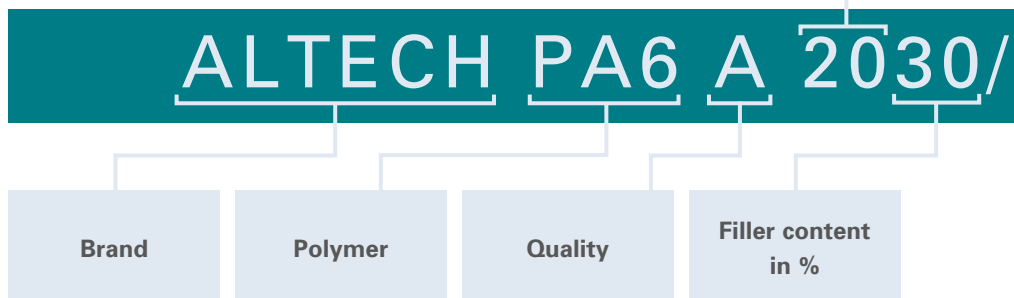

**THE SOLUTION: NOT TO RELY ON THE EASIEST SOLUTION.**

Your key advantage is our ability to provide personal technical advice on-site. We offer customized support in form of calculations of structural components or by improving your tool design. In cooperation with you we develop optimum solutions and manage new challenges.

**The composition of an ALTECH® compound gives every product a unique name.**

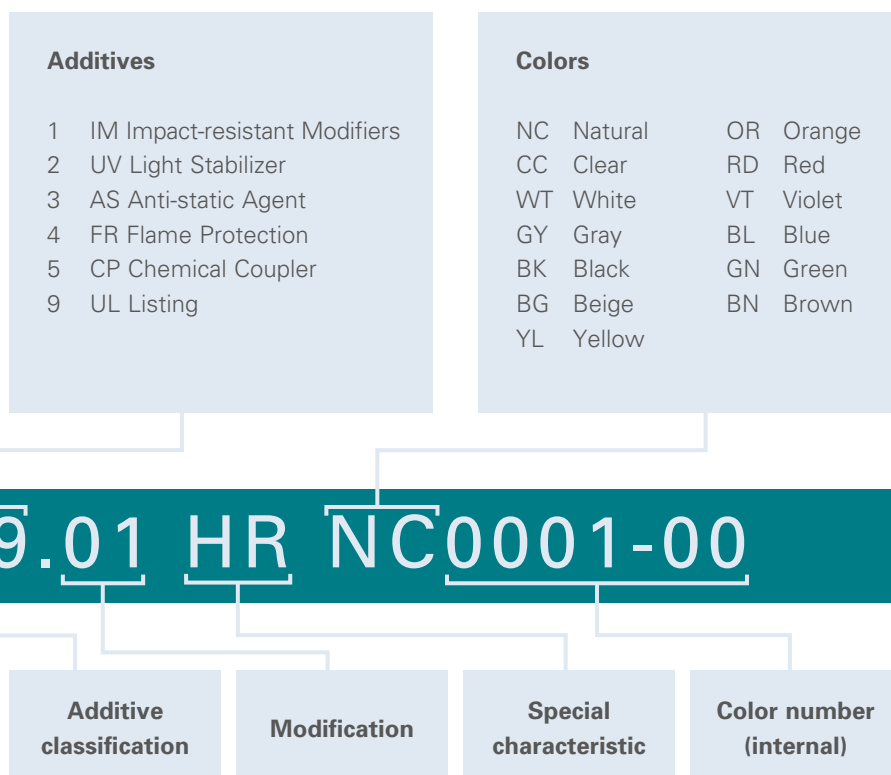

Fillers	
10	Non-reinforced
20	Glass fiber
23	Glass fiber and glass beads
24	Glass fiber and minerals
28	Glass fiber and chalk
30	Glass beads
32	Glass beads and glass fiber
34	Glass beads and minerals
40	Minerals
42	Minerals and glass fiber
43	Minerals and glass beads
44	Chalk and talc
48	Chalk
49	Talc
50	Special filler

**THE TARGET: TO FINISH YOUR PROJECTS SAFE AND SUCCESSFULLY IN TARGET.**

Even our standard polymers are among the best products on the market. By adding specific additives our plastics achieve their exceptional characteristics. Your desired characteristic is not in our portfolio yet? No matter no problem which aim you are pursuing, we will develop an ALTECH® compound meeting your exact specifications. We keep a permanent stock of relevant fillers, additives and colors.

**Your material needs to achieve more than a conventional plastic? Please choose from a wide range of technical compounds, or talk to us about your individual plastic solution – together with ALTECH®, we'll always find the optimum approach.**

As one of the leading compounders in Europe, we understand and meet the exceptionally high requirements of the market. Our answer is ALTECH®: The customized solution within the ALBIS product range!

We have bundled all our complete experience and know-how of our employees out of two sections. Experts from research & development and from TSAD (Technical Service and Application Development) are working closely together in order to fulfill your expectations. This is the reason why we are also able to shorten the general research & development phase radically.
