

Microplastics Regulation (EU) 2023/2055 on synthetic polymer microparticles (SPM)

The **ALBIS Distribution Group** is a distributor of thermoplastic resins. Hence, the products sold by us are plastic granules which by nature are < 5 mm and therefore polymer microparticles according to **Commission Regulation (EU) 2023/2055** of 25 September 2023 amending Annex XVII to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) as regards **synthetic polymer microparticles (SPM)**. However, please note that our plastic granules are processed by our customers into plastic molded parts through extrusion/injection moulding. Our products are therefore exempt from the restriction under paragraph 1 of the above Regulation, see paragraphs 4 a) and 5 c).

In general our suppliers comply with the information obligations by providing the required information in the respective **material safety data sheet (MSDS)**. Alternatively, information concerning Regulation (EU) 2023/2055 may be provided through the labeling on the packaging of the plastic granules delivered to you.

The MSDS is available upon request from your ALBIS sales representative.

This statement applies only to product distributed by the subsidiary of the **ALBIS Distribution Group** in charge of you.
