

HEALTHCARE

Polymers for medical, pharmaceutical and diagnostic applications

ALCOM[®]MED – Healthcare Compounds

- Supported by an unmatched distribution portfolio of globally respected & established Healthcare specific polymer brands, ALCOM[®]MED offers customer-lead solutions for medical device, pharmaceutical packaging and diagnostic applications.
- Compounds can be coloured, functional or both depending upon specific customer needs across various polymer types
- ALCOM[®]MED product service offering can include based on customer agreement, inter alia, compositional statements, change notification periods, regulatory compliance statements and production on ISO-certified production facility.

ALBIS Licence Compounding

ALBIS is partner for licence compounding for development and production of health-care compounds of the following materials:

IneosStyrolution: ABS specialities (Novodur[®] HD colored)

Covestro: PC (Makrolon[®] colored)

LyondellBasell: PE LD/HD (Purell[®] PE colored)
PP Homo/Heco/Raco (Purell[®] PP colored)

ALCOM HM[®] Biomaster Protected

Antimicrobial Compounds incorporating Biomaster Antibacterial technology to give permanent protection. Can be supplied using various polymer types.

Important note

Healthcare uses: The supply of any product by ALBIS for any medical, pharmaceutical or diagnostic application is conditional to an assessment by ALBIS in terms of compliance with ALBIS' internal risk management policy – even for products which are in general designated for use in Healthcare applications.

Important: Irrespective of product type or designation, ALBIS does not recommend or support the use of any products it supplies which fall into the following medical, pharmaceutical or diagnostic application categories:

- Medical devices categorized as risk class III according to EU Directive 93/42/EEC or EU Medical Device Regulation (MDR) 2017/745 or risk class 3 FDA
- Bodily implant applications for greater than 30 days (permanent implants) in any risk class
- Critical components in any medical device that supports or sustains human life except as otherwise explicitly agreed by ALBIS in writing.

Disclaimer

Any information given on the chemical and physical characteristics of our products, including, without limitation, technical advice on applications, whether verbally, in writing or by testing the product, is given to the best of our knowledge and in good faith and does not exempt the buyer from carrying out their own investigations and tests in order to ascertain the product's specific suitability for the purpose intended. The buyer is solely responsible for confirming the suitability of the product for a particular application, its utilization and processing and must observe any applicable laws and government regulations.

NO EXPRESS OR IMPLIED RECOMMENDATION OR WARRANTY IS GIVEN WITH REGARD TO THE SUITABILITY OF THE PRODUCT FOR A PARTICULAR APPLICATION, SUCH AS, BUT NOT LIMITED TO, SAFETY-CRITICAL COMPONENTS OR SYSTEMS.
