

## UK REACH Compliance

Dear Customer,

With Brexit, the UK has established its own chemicals registration. Given this, notifications and registrations of chemical substances made under EU REACH will no longer apply in the UK. UK REACH has come into force from 1<sup>st</sup> January, 2021.

We, the **ALBIS Distribution Group**, confirm that the products supplied by **ALBIS (UK) Ltd.** are UK REACH compliant, which is received by either

- transfer of EU REACH registration into UK REACH ('grandfathering')
- submission of a **new registration**
- submission of a **DUIN notification** (Downstream User Import Notification)
- **exemption** from the registration requirements

You will find a list of our UK REACH compliant **distribution products** on page 2.

Furthermore, ALBIS (UK) Ltd. has submitted DUIN notifications for substances requiring this in due time. Please be aware that there is no obligation to disclose our DUIN-Number.

Since ALBIS (UK) Ltd. is GB based it is not necessary to appoint an Only Representative (OR).

If you have any questions, please do not hesitate to contact us.
