Conflict Minerals (tin, tantalum, tungsten, gold and their derivatives; based on columbite-tantalite, cassiterite, wolframite and gold ore) according to **Regulation (EU) 2017/821**, most recently amended by **Regulation (EU) 2020/1588**, and as defined by Section 1502 of the **Dodd-Frank Wall Street Reform and Consumer Protection Act** have not been intentionally added to these products during the compounding process and are not known to be present. Only ubiquitous traces may occur.

For products of other manufacturers, confirmations can be obtained on request.

(*) Grades of the following product groups are manufactured without the intentional use of Conflict Minerals as ingredients during the compounding process are not known to be present. Regarding the polymer base the absence of Conflict Minerals cannot be guaranteed:

- **ALTECH IQ**
- **ALTECH REG**
- **ALTECH REP**

Statements are available on request for the following products:

- Products manufactured by **MOCOM Compounds Corporation (USA)**
- Products manufactured by **MOCOM Compounds (Changshu) Co., Ltd. (China)**

Please note:

The **Conflict Minerals Reporting Template (CMRT)** is a **voluntary** tool for exchanging information throughout the supply chain regarding the country of origin of minerals and the smelters, refiners, and processors used for processing conflict minerals. Suppliers may use the CMRT to communicate this information to their customers, or they may use another tool of their choice. There is **no legal obligation to use the CMRT**. As our distribution partners do not fill in the CMRT either, **ALBIS** reserves the right to **replace the CMRT with this statement** and **will therefore not be completing any CMRT templates**. Thank you for your understanding.
