

Solutions for food and water applications

Discover our range of smart plastics engineered for food and drinking water contact. Our products meet rigorous regulations to ensure the highest levels of safety and hygiene. Whether you are designing components for kitchen appliances, food packaging, utensils, fittings, or containers, our solutions are the optimal choice for all your food and beverage requirements. Legislation and guidelines for food and potable water contact vary globally and across Europe, with numerous organizations and agencies tasked with assessing and certifying plastic products utilized in these applications. At ALBIS, we possess the knowledge and expertise to guide you on the best options for food and drinking water contact needs. Browse our range of products to find the perfect solution for your specific application.

Our products – Your solutions.
