We drive polymer distribution.

Easy, smart, passionate.

Product Guide India
November 2026

	Product	Description
BASF We create chemistry	Ecovio®	PBAT, PLA
	Ultradur®	PBT, PBT blends
	Ultradur® BMBcert®	Mass balance-certified PBT and PBT blends with attributed renewable feedstock content
	Ultradur® Ccycled®	Mass balance-certified PBT and PBT blends with attributed recycled feedstock content from chemical recycling
	Ultradur® RC	PBT and PBT blends containing mechanically recycled feedstocks from PIR and/or PCR sources
	Ultradur® rPCF	PBT and PBT blends with a reduced Product Carbon Footprint compared to the corresponding conventional BASF product
	Ultraform®	POM
	Ultraform® BMBcert®	Mass balance-certified POM with attributed renewable feedstock content
	Ultramid® A, B, C, Balance	PA66, 6, 6/66, 6.10
	Ultramid® Advanced N, T1000, T2000	PA9T, 6T/6I, 6T/66
	Ultramid® BMBcert®	Mass balance-certified PA with attributed renewable feedstock content
	Ultramid® Ccycled®	Mass balance-certified PA with attributed recycled feedstock content from chemical recycling
	Ultramid® Expand	EPA
	Ultramid® RC	PA containing mechanically recycled feedstocks from PIR and/or PCR sources
	Ultramid® rPCF	PA with a reduced Product Carbon Footprint compared to the corresponding conventional BASF product
	Ultramid® T KR, 6000, 7000	PA6T/6, 66/6T, PA/PPA
covestro	Apec®	PC-HT
	Apec® RE	Selected PC-HT grades with attributed bio-circular feedstock content based on an ISCC PLUS-certified mass balance approach
	Bayblend®	PC+ABS, PC+ASA, PC+SAN
	Bayblend® R	PIR/PCR, PC+ABS
	Bayblend® RE	Selected PC+ABS grades with attributed bio-circular feedstock content based on an ISCC PLUS-certified mass balance approach
	Desmopan®	TPU
	Desmopan® CQ EC	TPU bio-based solutions
	Desmopan® CQ MBC	TPU bio-circular / mass balance approach
	Desmopan® CQ RC	TPU recycling solutions
	Makroblend®	PC+PBT, PC+PET
	Makroblend® RE	Selected PC+PET grades with attributed bio-circular feedstock content based on an ISCC PLUS-certified mass balance approach
	Makrolon®	PC
	Makrolon® R	PIR/PCR, PC
	Makrolon® RE	Selected PC grades with attributed bio-circular feedstock content based on an ISCC PLUS-certified mass balance approach
	Texin®	TPU
	Utechllan®	TPU

INEOS Styrolution

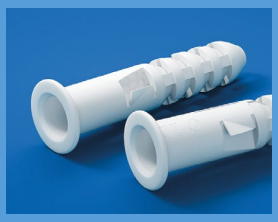

Product	Description
Clearlux®	MABS
K-Resin®	SBC
Luran®	SAN
Luran® ECO	Selected SAN grades with attributed bio-circular feedstock content based on an ISCC PLUS-certified mass balance approach
Luran® HH	AMSAN
Luran® S	ASA
Luran® S ECO	Selected ASA grades with attributed bio-circular feedstock content based on an ISCC PLUS-certified mass balance approach
Luran® S/C	ASA+PC
Lustran®	ABS
NAS®	SMMA
NAS® ECO	Selected SMMA grades with attributed bio-circular feedstock content based on an ISCC PLUS-certified mass balance approach
Novodur®	ABS
Novodur® ECO	Selected ABS grades with either attributed bio-circular feedstock based on an ISCC PLUS-certified mass balance approach or mechanically recycled content, depending on the grade
Novodur® HD	ABS (healthcare)
Novodur® HD ECO	Selected ABS grades with attributed bio-circular feedstock content based on an ISCC PLUS-certified mass balance approach
Novodur® HH	ABS (high heat)
Novodur® HH ECO	ABS with mechanically recycled PCR content
Styroflex®	SBC thermoplastic elastomer
Styroflex® ECO	Selected SBC grades with attributed bio-circular feedstock content based on an ISCC PLUS-certified mass balance approach
Styrolution® PS	PS-GP, PS-HI
Styrolution® PS ECO	Selected PS grades with either attributed bio-circular feedstock based on an ISCC PLUS-certified mass balance approach or mechanically recycled content, depending on the grade
Styrolux®	SBC
Styrolux® ECO	Selected SBC grades with attributed bio-circular feedstock content based on an ISCC PLUS-certified mass balance approach
Terblend® N	ABS + PA
Terblend® S	ASA + PA
Terluran®	ABS
Terluran® ECO	Selected ABS grades with either attributed bio-circular feedstock based on an ISCC PLUS-certified mass balance approach or mechanically recycled content, depending on the grade
Terlux®	MABS
Terlux®ECO	Selected MABS grades with attributed bio-circular feedstock content based on an ISCC PLUS-certified mass balance approach
Terlux® HD	MABS (healthcare)
Zylar®	MBS
Zylar®ECO	Selected MBS grades with attributed bio-circular feedstock content based on an ISCC PLUS-certified mass balance approach

	Product	Description
MOCOM	Alcom®	Customer specific compound solutions based on various polymers (Prime and ECO based)
	Alcom® 3D	Applicable for production of filaments for fused deposition modeling (FDM)
	Alcom® EC	Electrically conductive
	Alcom® LB	Light blocking and high reflection
	Alcom® LD / LDDC / LG / LIR	Light diffusion / Light diffusion deep colour / Light guiding / Light infrared
	Alcom® MED	Medical, pharmaceutical and diagnostic applications
	Alcom® TC	Thermally conductive
	Alcom® WP	Wear protect
	Alfater XL®	TPV (PP+EPDM)
	Alfater XL® ECO	TPV (PP+EPDM) recycling grades based on PIR and PCR feedstock with reduced carbon footprint
	Altech®	PA6, PA66, PP, PS, ABS, PC, PC blends, SAN, etc.
	Altech® ECO	Recycling grades PA6, PA66, PP, PC, PC blends etc. based on PIR and PCR feedstock with reduced carbon footprint
	Altech NXT PP®	Glass fiber reinforced PP compounds
	Cellidor®	Based on cellulose esters from renewable cellulose
	Tedur®	Linear PPS
	Wic	PP, PA6, PA66 reinforced with recycled carbon fiber
SK chemicals	ECOTRIA® Claro	Speciality PET
	ECOTRIA® Claro CR	Speciality PET with a share of chemically recycled polymer content
	ECOTRIA® CR	Thermoplastic copolyester with a share of chemically recycled polymer content
	ECOTRIA® R	Thermoplastic copolyester with a share of mechanically recycled PCR content
	ECOZEN® (series: T)	Bio-modified copolyester
	SKYGREEN®	Copolyester PETG and PCTG grades
	SKYPET®	PETg
	SKYPET® CR	Chemically recycled PCR PET
	SKYPLETE® (series: E, G, L)	Product range for 3D-printing
	SKYPURA®	High temperature and high performance polyester PCT
	SKYTRA®	Reinforced and flame retardant PET

	Product	Description
SYENSQO	Amodel®	PPA
	Amodel® Bios	Partially bio-based PPA
	Amodel® ECHO RF	Up to 50 % recycled content from pre-consumer waste allocated using mass balance
	Avaspire®	PAEK
	Diofan® / Ixan®	PVDC
	Halar®	ECTFE
	Ixef®	PARA
	Ixef® ECHO RF	Up to 60 % recycled content from pre-consumer waste
	Ixef® HC/GS	For healthcare applications
	Kalix® / Omnix®	HPPA
	Ketaspire®	PEEK
	Omnix® ECHO	Up to 98 % recycled resin and recycled glass fiber
	Radel®	PPSU
	Ryton®	PPS
	Solef® / Hylar®	PVDF
	Udel®	PSU
	Veradel®	PESU
	Xencor™	High performance long fiber thermoplastics of PA66, HPPA, PPA, PARA and PPS
	Xydar®	LCP
ALBIS	Ultramid® S3K	PA6.10
Bekaert	Beki-Shield®	Steel fiber batch
GRANULA POLYMER	GranaClean®	Cleaning granules
RÖHM	PLEXIGLAS®	Standard PMMA molding compounds
	PLEXIGLAS® Heatresist	High heat deflection temperature under load PMMA molding compounds
	PLEXIGLAS® Hi-Gloss	High brilliance PMMA molding compounds
	PLEXIGLAS® Optical HT	High optical quality and increased long-term service temperature PMMA molding compounds
	PLEXIGLAS® proTerra	PMMA molding compounds with a lower product carbon footprint than the corresponding conventional reference grade. The reduction and calculation basis are grade-specific
	PLEXIGLAS® Resist	Impact-modified PMMA molding compounds
	PLEXIMID®	Very high heat deflection temperature under load PMMI molding compounds

	Product	Description
ROMIRA TECHNISCHE KUNSTSTOFFE	Luranyl® HT	PPE + PA
	Luranyl® KR	PPE + PS
SIPOL®	Sipolprene®	TPC
	Sipolprene® S	TPC grades with grade-specific renewable content
	Technipol® Bio	PBS, PBAT, PBSeb
VAMP TECH Your Compounding Partner	Vampalloy®	PC+ABS FR, PA+PPS FR
	Vampamid®	PA6 FR, PA66 FR
	Vampcarb®	PC FR
	Vamplen®	PP FR
	Vamporan®	PPE FR
	Vampsab®	ABS FR
	Vampson®	PPS FR
	Vampstyr®	PS FR
	Vampsulf®	PSU FR
	Vampter®	PBT FR, PC+PBT FR
	Vampgreen™	Flame-retardant compounds based on Recycled or Non-Fossil Feedstocks

The best solution for your industry

Building & Construction

- Exterior and aesthetic interior spaces for functional design
- Antibacterial protection in sanitary facilities according to ISO 22196
- High understanding of the building and construction industry regulations

Electrical & Electronics

- Light- and lighting technology:
  - Reflectors, diffusing discs, light guides, housings
  - Optics and lenses
  - Operating elements and displays
- EMI and ESD shielding elements
- Thermal conductive and flame retardant solutions for housings of electronics
- Components and housings for household appliances

Healthcare

- Medical grade plastics according to VDI guideline 2017 MGP
- Polymers for medical devices, invitro diagnostics and pharmaceutical packaging as well as biopharma applications and laboratory equipment
- Customised compound solutions
- Support in regulatory questions

Mobility

- Applications in e-mobility, railway and other transport systems
- Components for lighting systems
- Thermal management of components
- Lightweight applications (under the hood, vehicle interior)
- Aesthetical and structural parts
- Bellows and air ducts

Packaging

- High expertise in cosmetic packaging
- Packaging concepts for food applications
- Bag in box systems and caps and closures
- Extended shelf live food packaging

Sports & Leisure

- Huge array of high performance polymers for protective or lightweight design
- Solutions for protective gear, bikes, scooters etc.
- General outdoor equipment for every usage in an increasing array of sporting and leisure activities

Material Options to Support Your Sustainability Goals

- A comprehensive portfolio of materials designed to support sustainability goals across various plastic
- Bio-based plastics derived from renewable feedstocks, as well as materials based on mechanically or chemically recycled content
- Material solutions supporting circular economy approaches and recycling concepts
