

Battery Regulation (EU) 2023/1542 (EMRT)

The **Battery Regulation (EU) 2023/1542**, concerning batteries and waste batteries, amending Directive 2008/98/EC and Regulation (EU) 2019/1020, repealing Directive 2006/66/EC, **refers to active materials in battery cells**. According to the Regulation, 'active materials' are defined as materials that react chemically to produce electrical energy when the battery discharges, or to store electrical energy when the battery is charged. We hereby declare that **our plastic granules fall outside the scope** of this definition, meaning Regulation (EU) 2023/1542 does not apply to them.

This statement only applies to products distributed by the **ALBIS Distribution Group**.

Please note:

The **Extended Minerals Reporting Template (EMRT)** is a **voluntary** tool for exchanging information throughout the supply chain regarding the country of origin of minerals and the smelters, refiners, and processors used for processing minerals (e.g. cobalt, mica, copper, natural graphite, lithium, and nickel) intended for use as active materials in battery cells, as regulated by Battery Regulation (EU) 2023/1542. Suppliers may use the EMRT to communicate this information to their customers, or they may use another tool of their choice. There is **no legal obligation to use the EMRT**. As our distribution partners do not fill in the EMRT either, **ALBIS reserves the right to replace the EMRT with this statement and will therefore not be completing any EMRT templates**. Thank you for your understanding.

On behalf and in the name of
ALBIS Distribution GmbH & Co. KG
Environment & Material Compliance

Any information given on the chemical and physical characteristics of our products including, without limitation, technical advice on applications, whether verbally, in writing or by testing the product, is given to the best of our knowledge and in good faith and does not exempt the customer from carrying out their own investigations and tests in order to ascertain the product's specific suitability for the purpose intended. The customer is solely responsible for confirming the suitability of the product for a particular application, its utilization and processing and must observe any applicable laws and government regulations. **NO EXPRESS OR IMPLIED RECOMMENDATION OR WARRANTY IS GIVEN WITH REGARD TO THE SUITABILITY OF THE PRODUCT FOR A PARTICULAR APPLICATION, SUCH AS, BUT NOT LIMITED TO, SAFETY-CRITICAL COMPONENTS OR SYSTEMS.** At all times, our general terms and conditions of sale apply. **This confirmation expires after 36 months from the date of issue or in case of regulatory changes. Please ask for a new confirmation if needed.**
